Delanson, N. Y., March 7 .- (Special.) -Engineer O. H. Bates stepped off engine No. 275 today, with a long oiler in one hand and a bunch of waste in the other. Not a bystander there could help remarking his youthful, healthy, look, and active, vigorous movement, and contrasting his appearance with his condition of two months ago.

"Say, Colonel, how well you look!"
"Yes, I am well; better than I have en for years.'

"What have you been doing?" "Oh, not much; No-to-bac cured me of the tobacco habit, after using it 43 years, and braced me mentally and physically. In fact, made me a new man in more ways than one. I had no appetite; couldn't sleep; now I sleep with a relish, for the first time in years. My heart action is regular and no longer a bar to increased life insurance.

The following startling disclosures of a New England woman would baffe belief were not the positive proofs at hand. Lost for nearly a year to her family and friends, tortured by most agonizing trials into a mere living shadow, the restored wife and mother now makes public the particulars of her rescue.

CONSUMPTION CURED.

Mr. Geo. W. Hulstzer, a well known railroad conductor of Milton, North-umberland Co., Pa., writes: "I had my third doctor and he decorred at me for some time and finally said 'there is no use running up a bill.' I asked him what alled me. He said 'why, it is consumption.' This gave me great alarm, and I was about to give up in despair, but thanks to kind Providence, my little bey came in one day from the front yard with one of Dr. Pierce's Memorandum and Account Books. I read the pages, and then told my wife that I believed if we could get that 'Golden Medical Discovery' it would help me. My wife called at the drug store in a few lars of her rescue.

Her trouble dates back to a year ago last June, when worry and overwork brought on a condition of mental de-

pression, from which, do what she would, she was unable to free herself. Her family noticed that she seemed a lose all energy. Next her strength gave way. Then she began to waste in flesh, until the wrinkled skin of her face hung from her cheekbones. Her elbows were sharp. She could not bear to rest them on the table. It seemed as if nothing but her skeleton was left. Seeking health abroad, by the advice of her physician, she failed so fast that her husband did not recognize her when he met her on the deck of the returning steamer. Her children were frightened at the "strange woman." Eminent special-ists who were now consulted sent her to a Rhode Island sanitarium.
